PIH Health Hospital - Whittier provides the high-quality healthcare our communities have come to expect. The Whittier campus delivers outstanding and compassionate care to patients, every day.

Founded in 1959 as Presbyterian Intercommunity Hospital, the hospital was built to address the need for care after a post-World War II population boom. Today, the campus is the area's acknowledged leading healthcare center. The 548-bed, top-notch facility serves residents in Los Angeles and Orange Counties, and the San Gabriel Valley. The Whittier campus is part of PIH Health, a comprehensive health network consisting of two hospitals, 22 medical office locations and a host of specialty services.
