

# Dermatology, Aesthetic Medicine & Mohs Surgery

PIHHealth.org

The PIH Health Dermatology, Aesthetics & Mohs Surgery Center provides a full spectrum of general dermatological services, including medical, surgical and laser procedures as well as aesthetic and cosmetic treatments.

## General Dermatology

We provide dermatology services that cover a majority of skin conditions in both children and adults. Our skin care experts will help you find the right type of treatment for your specific condition, from acne to skin cancer.

### CONDITIONS WE TREAT

- Acne
- Age and sun spots
- Eczema
- Fungal infections (athlete's foot, ringworm, jock itch)
- Hair loss
- Hemangiomas and port-wine stains
- Hives
- Moles
- Nail disorders
- Pediatric skin disorders
- Psoriasis
- Rashes
- Rosacea
- Scabies
- Skin cancer screening and treatment
- Skin infections
- Warts

## Surgical Dermatology

Our skin cancer experts provide diagnostic and surgical expertise in the removal and treatment of basal cell and squamous cell carcinomas, melanoma and other benign and pre-cancerous skin growths. We specialize in Mohs micrographic surgery which is the most accurate and tissue-sparing technique used to treat higher-risk basal and squamous cell carcinomas.

### OUR SURGICAL SERVICES INCLUDE

- Removal of skin lesions
- Mohs surgery for skin cancer removal
- Facial reconstruction for skin cancer
