

Oncology Nursing Certification (ONC) TWO-DAY COURSE

About

This two-day course will review key components of the oncology nursing certification test blue print in an effort to assist oncology nurses to prepare for the exam. Target audience for this course are:

- Oncology nurses who are planning to take the OCN exam
- Nurses who are new to oncology and are seeking oncology specific CEUs
- Oncology nurses who are already certified and seek to obtain oncology specific CEUs

This review course is structured to highlight the key areas of testing and to provide a collaborative working environment.
