Otolaryngology

About Us
PIH Health Otolaryngologists are experts trained in the medical and surgical management and treatment of patients with diseases and disorders of the ear, nose and throat (ENT), related to the structures of the head, neck and face. Each is committed to using the latest procedures and advancements in medicine and surgery to ensure excellent outcomes for both adults and children. Plus, our clinicians and staff provide a welcoming atmosphere and compassionate care for our patients and their families.
